CSB Featured Star - Tavares Love

Years on squad: 2005, 2006, 2009

Tav talks about his passion for learning and sharing: "Everyone should take a moment and learn something new each day. That action alone could have a huge impact in our world today. The true trick to it, however, is also being willing to share that new piece of knowledge with someone. If only we all kept learning and continuously communicating..."

Hobbies: Too many to name, including Circus, reading, writing, photography, computers, yo-yo's, painting... "I love walking into Craft stores and letting the project form itself out of whatever I see, basically become a sculptor who can already see the statue residing in the stone before him."

Why you cheer with CSB: I cheer for CSB because of the direct impact our organization has in our communities. No other group affords you the opportunity to physically, mentally, and monetarily support such a vast array of organizations. There is nothing quite like it!
